

Emory Analytics Training: Developer Course Data Sample Guidelines

If the data is not currently available in EBI, a data sample **must** be provided with the application. The data sample should meet the following criteria:

- No more than 50 columns
- No fewer than 1,000 records, but no more than 250,000 records (rows)
- Data must include measurable numeric values, and should include a variety of other data types (i.e. dates, text, distinct IDs, measurable numeric values such as dollar amounts, credit hours, etc.)
- Acceptable formats include Excel (.xlsx) and CSV
- Data should be in a flat file – one row of headers, repeated rows of detail. No additional formatting (see below example)

Dimension.Product	Dimension.Market	Dimension.Year	Dimension.Scenario	Sales	COGS	Marketing	Payroll	Misc	Opening Inventory	Additions
100-10	New York	Jan	Actual	678	271	94	51	0	2101	644
100-10	New York	Jan	Budget	640	260	80	40	#Missing	2030	600
100-10	New York	Feb	Actual	645	258	90	51	1	#Missing	619
100-10	New York	Feb	Budget	610	240	80	40	#Missing	#Missing	600
100-10	New York	Mar	Actual	675	270	94	51	1	#Missing	742
100-10	New York	Mar	Budget	640	250	80	40	#Missing	#Missing	700
100-10	New York	Apr	Actual	712	284	99	53	0	#Missing	854
100-10	New York	Apr	Budget	670	270	80	40	#Missing	#Missing	800
