Journals should be reviewed after month-end close for entries that did not post.

If a journal does not post during the month specified in the batch header, it will expire. You will need to submit the journal the next month by [copying the expired journal](#), thus creating a new journal in the current period. Supporting documents should be reattached and the current month journal submitted again for workflow approval. Please [delete the original expired journal](#). If the journal is not deleted, all entries from the prior period will be deleted by Finance as soon as the 7th business day of the month.

Thank you for promptly submitting your entries. If you have any questions, please contact [compass@emory.edu](mailto:compass@emory.edu).
