Install Excel Plug-In

1. Start Microsoft Excel 2007
2. Click the Office Button in the upper left-hand corner
3. Click the Excel Options button on the bottom of the menu popup
4. When the Excel Options window pops up, click on Add-Ins on the left-hand side

5. At the bottom, ensure that “Excel Add-Ins” is selected in the dropdown box, and click the Go button next to it
6. On the next popup, click the Browse button.
7. A Windows Browse dialog box should appear. Navigate to T:\fscnv\excel

8. Double-click the DrillToPIA add-in to select it.

9. Click Yes to the following dialog box.
10. You should now see DrillToPIA in the list with a checkbox next to it

11. Ensure that the checkbox stays checked and click OK
12. Back on the main Excel page, you should see “nVisionDrill” under the Add-ins menu

13. You can close Microsoft Excel

The Microsoft Excel plug-in installation is complete.

That’s the end of these installation instructions.
